

The Wire Process Connection

The Wire Process Connection Bi-Monthly Newsletter

After a lengthy hiatus, we are pleased to re-start our bi-monthly newsletter. As before, it will contain announcements of new products, processing applications and other areas of interest within the wire harness and cable processing industry. In addition, we will be sending out occasional announcements of special interest to our customers using this newsletter format

You are receiving this email as a customer of WPS or have inquired on products we make available. If you do not want to receive this newsletter, please follow the unsubscribe instructions below.

Carpenter Model 78 Pneumatic Wire Stripper

The Carpenter Model 78 wire stripper is designed to strip single conductor stranded wire from 10 awg to as low as 30 awg. The unique blade design provides extra support to pull off large diameter wire and tougher insulation. The 78 is pneumatically operated with low air supply requirements.

The 78 is very compact but has a stable footprint. Safety is foremost with the 78. The guard has a safety interlock that prevents operation while the guard is removed.

For more information on the 78 or other Carpenter models, go to: www.wireprocess.com/Carpenter.html

April, 2008

FLG3 Hand Held Heat Shrink Tube processor.

Judco FLG3 now available.

Judco has released the latest in it's line of heat shrink tube processing machines.

The FLG3 is a hand held unit with bench top base included. The FL series use focused light from Quartz Halogen bulbs to shrink tube in less time and with less energy than traditional heat shrink methods.

Electrical Wire Processing Technology Expo.

The Eighth annual Electrical Wire Processing Technology Expo is one month away. This is the marquee event for the Wire Processing equipment industry in North America. As in previous years, the Wire Process Expo will be held at the Midwest Airlines Center in Milwaukee, WI on May 21 and 22. If you have not been able to attend this show, it is worth the investment of a few days of your time. The show features a networking reception on the Wednesday evening in the exhibit hall.

In our May newsletter, we will feature some of the new technology that will be on display by our Global partners.

To register and to receive special event pricing for travel and accommodations, click on the link below. Please note that hotel rooms may be scarce during the show due to another event that is on during the expo. Reserve early.

See you in Milwaukee!
